Heartwood

architecture for the birds

THE COTTON COLLECTION

Historic homes made from the reclaimed cypress of a 19th century Cotton Compress building. Together, we're making homes and history in a way that makes the future a little brighter for all.

Blues Bird Barn

We adore birds; you adore birds. So maybe it was natural that we build one of our most adorable houses ever, topped by our bird's eye version of a weather vane. No, you won't hear any crowing from that little rooster on the roof, but you'll rise and shine every morning with the knowledge that your birds await—and you may feel like crowing yourself as bird songs fill the air!

243A Blues Bird Barn / 6"x11"x16" / 1-1/2" Hole

Cottonwood Chapel

By their fruits you shall know them, Matthew 7:16 tells us, and here, the sanctuary from our Cotton Collection offers a bounty of beauty and care for birds, people and the planet. The cypress is reclaimed, and the construction is pure Heartwood—which is to say we've put all our hearts into making this a cherished addition for your home and garden, and especially for your birds.

242A Cottonwood Chapel / 6"x10"x20" / 1-1/2" Hole

Birdiwampus

Another magical one-of-a-kind creation with an irresistible acquisition from every whimsical angle.

See back cover for details.

Huck's Hideaway

The adventures of Tom and Huck have charmed generation upon generation; that's what a classic does. And unlike Aunt Polly's fence, the classic slat-front design of Huck's Hideaway weathers wonderfully without any work at all: You and your family can welcome your birds with unparalleled hospitality, as you enjoy carefree ownership thanks to sturdy construction. Though he wasn't much for the comforts of civilization, even Huck would approve of this Cotton Collection classic—you will, too!

244A Huck's Hideaway / 6"x9"x17" / 1-1/2" Hole

Old Waverly

With its beautifully simple design, and with a name inspired by a treasured historic landmark, Old Waverly brings the kind of new yet timeless tradition to your home and garden that is the hallmark of the Cotton Collection. The crisp lines of the copper roof, the clean design and graceful decorative front make this house at home in any outdoor setting. Birds dwell well at Old Waverly!

245A Old Waverly / 6"x7"x12" / 1-1/2" Hole

Every house in The Cotton Collection is unique - no two are alike! Each item will vary due to the texture and color of the reclaimed wood.

COTTON IS STORIED SOUTHERN HISTORY; IT'S RICH AND COMPLEX AMERICAN HISTORY. SO RECENTLY, WHEN THE 19TH CENTURY COTTON COMPRESS BUILDING IN BLYTHEVILLE, ARKANSAS WAS DISMANTLED, HEARTWOOD WAS QUICK TO ACQUIRE THE RECLAIMED CYPRESS, AND NOW WE'RE USING THAT CYPRESS TO MAKE HISTORY AGAIN WITH BEAUTIFULLY BUILT HOMES FOR BIRDS, HOMES THAT ARE HUMANELY AND NATURALLY SUSTAINABLE. WITH HEARTWOOD'S COTTON COLLECTION, WE'RE MAKING HOMES AND HISTORY TOGETHER IN A WAY THAT MAKES THE FUTURE A LITTLE BRIGHTER FOR ALL.

NEW FOR 2017

Imperial Inn

East meets best in this quietly dazzling home guaranteed to bring beauty and harmony to your garden and birding environment. While a graceful combination of shape and color is what makes this artful abode such a pleasure for the eyes, meticulous attention to every construction detail is what makes it home for the ages. Wherever you go, go with all your heart, Confucius said. This enchanting house will bring you and your birds home with hearts full of happiness. Mounting plate included.

SKYSCAPE

Rising toward the sky with clean lines and a dramatically pitched roof, Skyscape rises to the occasion with enduring artistry and quality, promising years of delighted use by your birds and scenic pleasure for you. The look is classic: striated bark finish hand painted in rich redwood, while the solid base allows for mounting or free-standing beauty. Pamper your birds and take your landscaping to the next level with Skyscape. Comes with metal mounting plate.

232A Skyscape / 8"x8"x31" / 1-1/2" Hole

ARROWHEAD LODGE

Big sky beauty: That's what we love about the West. And here West meets best in a masterful interpretation of classic Americana that packs plenty of wide-open interior space into a handsome, compact design. Even better, rugged mahogany construction with copper roof provides more than great looks: Carefree maintenance and superb quality will have birds herding in to this stately lodge for decades to come.

YE OLDE BIRDE HOUSE

Writers from Charles Dickens to Emily Dickenson have spread the word about the wonder of birds, and so will this appealingly novel creation, combining storybook charm with durable cypress construction designed for real-world use year after year. You'll have a Dickens of a time wondering how you and your birds ever lived without it!

225A Ye Olde Birde House
8"x 9"x 24" / 1-1/2" Hole

THE WOODCUTTER

Add a touch of magical forest to your lawn with The Woodcutter, an enchanting combination of rustic simplicity and beautifully imaginative design details, like the dramatic asymmetrical "winged" front gable. Like its fairy tale namesake, Heartwood's Woodcutter is strong, sturdy and a reliable protector of precious characters—like, for example, your own beloved birds. Mounting plate included.

204A The Woodcutter / 8"x9"x16" / 1-1/2" Hole

Rock City

Blue skies, winding country roads, lush green fields that seemed to go on forever. It was a simpler time when "See Rock City" beckoned boldly from old barn roofs. Now you can go back to that time, and see Rock City without ever leaving home. Just peek out your window at these foursquare beauties. Like old barns, they're built to work hard as a shelter and to last for years.

Bluebird Bunkhouse

Round up a pleasing posse of America's favorite songbirds with this classic Bluebird Bunkhouse, beautifully simple in design and ruggedly built with front opening for easy cleaning. Truly American (they range only on the American continent), bluebirds suffered a decline in the last century after the introduction of European starlings and house sparrows, larger competitors that steal bluebird nest holes. Thanks to bluebird trails and other efforts, bluebirds have made a comeback; if you'd like to be sure to prevent any rustling on your range, simply place two Bunkhouses back to back or near each other. What you'll hear from your musical herds will be harmonious beyond compare!

Cellular PVC

is a completely synthetic and maintenance-free wood substitute. It will not absorb moisture, crack, split, warp, delaminate or rot. It has the rich appearance of wood with none of the maintenance issues related to painted wood. It maintains a "like new" appearance in all types of weather. Cellular PVC requires no paint for protection or appearance. It is impervious to wood-boring insects, freeze/thaw cycles and high humidity. Cleaning can be done with soap and water, should it be required. Cellular PVC has insulating value and is very strong for its density. Enjoy years and years of beauty and durability.

Classic Chapel

American Classic

There is, first of all, the beautifully spare design, reminiscent of the works of Frank Lloyd Wright, America's towering architectural icon. Then there is the hand-built, made-right-here-in-America quality. And finally, happily, there is the American know-how and can-do spirit that's resulted in an ingenious, eco-friendly approach to mahogany that makes this American Classic a joy to own.
